Guaranteed snow with the Zillertaler Superskipass

In addition to the altitude (from 560 m - 3,250 m), perfect piste conditions are ensured through ongoing investments in environmentally-friendly snow-making equipment fed with crystal-clear mountain water.

An impressive 72.8% of all the pistes can be covered in artificial snow if required. The complete snow guarantee is also offered in Zillertal thanks to the Hintertux Glacier, Austria's only year-round ski area. For these and many other reasons, Zillertal can guarantee you snow if you buy a Zillertaler Superskipass.
